PUBLIC SCHOOL NOTES

In response to an inquiry, Supt. R. F. Peters, has received the following letter from the State Department of Education:

"Your graded students should be examined and promoted by your own teachers in graded school districts. They may be promoted from the eighth grade to the ninth as well as from the seventh to the eighth, when they meet the requirements of your school. It is not necessary that they go thru the ordeal of an examination on State Board questions. Yours truly, George Colvin, State Superintendent."

In pursuance to the foregoing communication, an examination for admission to the eighth school department will be conducted by Miss Viola Beatty and Supt. Peters the last week of the school year. In order to be eligible for high school next year, eighth grade pupils must measure up to certain definite standards in scholarship, they must be regular in attendance from now until the close of the year, they must make, in the examination to be given, a general average of 85% and must not fall below 75% in any one subject. Diplomas will be awarded to the successful candidates.

Plans are under way for the presentation of a play by the high school students May 18. Date is tentative.

The school wishes to thank Mrs. Eldred Babbage for her unselfish efforts in presenting the entertainment at the Methodist church for the benefit of the Parent-Teacher Association.

That reminds us; the regular monthly meeting of the Parent-Teacher Association will be held in the school building Friday afternoon at 4:00 o'clock. The P-T. A. is fast becoming an important factor in the development of the public school. The cooperation and attendance of every parent in the district is earnestly requested. R. F. PETERS.

C. OF A. REVERSE JUDGEMENT IN SCHOOL CONTEST

Finally Settled That Voters Who Are Patrons of an Independent or Graded School Not Allowed to Vote in County School Board Election.

The Court of Appeals of Kentucky on the 22nd, reversed the judgement of the Breckinridge Circuit Court rendered at the last February Term, in which G. A. Wright was the plaintiff against Mike Lyddan, Chas. L. Miller, Tice McCoy, Robert Weatherford and Miss Eliza Pile. It affirmed the judgement in so far as Miss Pile is concerned because her plurality was too great to be overcome by the total vote of those deprived of ballots, who were entitled to vote.

The history of the case was about as follows: At the proper time before last November election interested parties got up a petition with the required number of signers, nominating Robert Weatherford, Tice McCoy, G. A. Wright, three republicans and J. A. Haynes and Orin Hardin, two democrats. Following this other interested parties prepared and secured necessary signers to another petition, nominating Mike Lyddan, C. L. Miller, Miss Eliza Pile, Edwin Egart and Miss Mary Brown, five democrats. Miss Brown withdrew her name leaving nine candidates as above set out.

Injunction Granted.

The day before the election an injunction was asked for and granted by Judge Layman restraining the election officers in the four white graded school districts from delivering ballots to colored voters residing in white graded school districts. All of the election officers were not served but on the advice of all concerned no ballots were delivered, in any of the precincts effected to any colored voters, so residing.

G. A. Wright was defeated on the face of the returns by 67 votes and filed a contest on the grounds that approximately 350 legal qualified colored voters residing in the four white graded school districts of the county were legal voters for members of the school board and had been denied the ballot.

Contestants Win.

The contestees took the position that under the act in question, colored voters residing in a white graded school district, were not entitled to vote in such election, while the contestant took the position that under the law, colored voters who belong to the public common school system of the county, even though geographically within a white graded school district, legally were not residents of a white district, and that the same would be true of white voters residing in a colored graded school, district, and that therefore such voters were entitled to vote for members of the County Boards of Education. The Court of Appeals in reversing the case sustains the contention of the contestants.

Those Allowed to Vote.

It was conceded by all that all voters who belonged to or were patrons of an independent or graded school district, which maintains an independent school system of its own are not entitled to vote for members of County Boards, because they are not concerned.

The contestant was represented by W. Sherman Ball, Ernest Woodward and Chas. H. Moorman.

The contestees were represented by Claude Mercer and Moorman & Walls.
